Geeta | Nrtya | Natika
(Operatic Dance Drama)

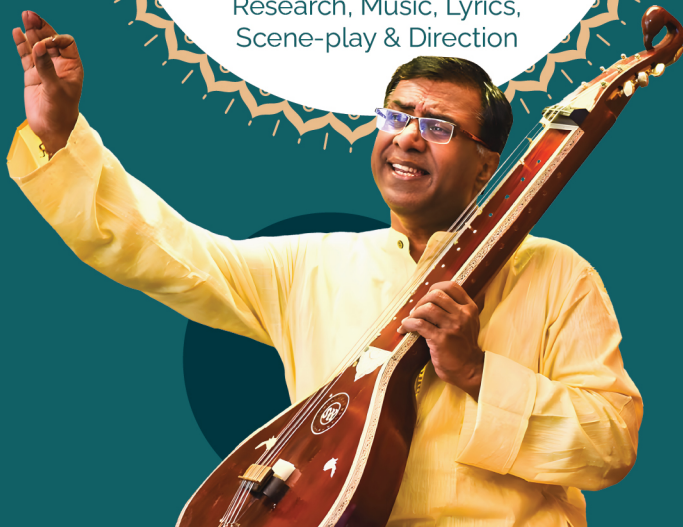

World Premiere

Maritime Heritage Day | Oct 27th, 2025

Churning of the Milky Ocean represents Evolution - Existential threats like poison emerge first but perseverance amidst all adversities leads to treasures and Amrta - enduring life.

**Sangeet Samrat
Chitravina N Ravikiran**
Research, Music, Lyrics,
Scene-play & Direction

When the ocean of consciousness is churned, both poison and nectar arise and man must learn to choose.

**Padma Vibhushan Awardee
Dr. Sonal Mansingh**
Choreography, Hindustani Music
& Dance Direction

This is a remarkable Geeta Natya Natika (Operatic Dance Drama) performance of the timeless Ksheera Sagara Amrta Manthanam, as narrated in the great Indian epic, Bhagavata Purana. This 60-minute creation blends Bharat's best values in using strategic collaborations - even with sworn enemies - to create win-win situations, though the end goal is to defeat negative forces and resurrect positive ones. The Sagara Manthanam has impacted not only India but several other South Asian cultures and is one of the most widely performed art-stories of Bharat.

This music and lyrics have been composed in a compelling manner by Sangeet Samrat Chitravina N Ravikiran, hailed as one of the most inventive champions of Indian music and culture. The dance has been brilliantly choreographed by the legendary Padma Vibhushan Awardee Dr Sonal Mansingh. This unique collaboration aims to capture the imagination of millions of Indian citizens as well as Indian diaspora from other parts of the world and re-ignite their pride in this venerable nation as well as their passion for its glorious history, heritage and culture.
